

Patient Access Solutions Opens Additional CIIT Center on the East End of Long Island, N.Y.

Commack, NY, June 8, 2017 –Patient Access Solutions, Inc. (PASO), a provider of healthcare/financial processing solutions for the healthcare, and dental industries, proudly announces the opening of an East End location of the CIIT Center, in Center Moriches New York. This location is centrally located to serve the East End of Long Island including communities on the South Fork like the Hamptons and all communities on the North Fork of Long Island.

A smaller version of the CIIT Center in Plainview, the Center Moriches location will afford patients the opportunity to be served by the same doctors involved in the Plainview location. The CIIT Center of Center Moriches will specialize in Brain Mapping, Medical and Neurological treatment protocols for the patients. For additional services, including PT, OT, ABA, Speech, IV Therapies, and TMS as an example, the patients will be referred to the CIIT Center of Plainview.

“We are excited to expand our outreach to the East End communities of Long Island”, stated Bruce Weitzberg, CEO, of PASO, “The geographic proximity allows for the CIIT Center name to be more recognized, as we strive to meet the needs of the patients.”

About Patient Access Solutions Inc.(www.pashealth.com)

Patient Access Solutions Inc. (PASHealth) is a Healthcare Solutions company which has created a formidable array of technology, resources and allies to enable it to become an agent of radical change in what has traditionally been a slowly evolving healthcare environment. For more information about the services and products of Patient Access Solutions, please visit our website at www.pashealth.com.

About the CIIT Center (www.theciitcenter.com)

The CIIT Center will occupy 12,500-square feet, in a street level office building located right off two major highways in Plainview, NY. The progressive center provides great efficiency and convenience in how we serve our patients. The goal is to create integrated, personalized treatment programs where the patient and staff work in unison to identify the underlying health conditions causing the issues, as opposed to just treating the symptoms.
